

ACI is looking for market experts in different fields

On the web site, <http://www.aciforex.org>, you will find the link where you can get all the details and the categories (ACI Market Experts)

This is very important because we want to :

- channel the information to the right people,
- have a mapping of specialists ready to be involved when ACI works on the answer to a public consultation , and participate to specific meetings,
- assist the Board of Education in setting-up the programs and exams for the ACI certificates

Please do not hesitate to forward this info to your members,
and they can volunteer to : aciadministration@aciforex.org

Thanks to you all,

Philippe JEANNE

Global Head FX, Natixis
